Agape Center

Agape Center Announcement

We at Agape Center are happy and excited to announce our new partnership with Community First Health Centers. Community First provides a variety of services to low income and homeless individuals and families. We will be joining forces with them to help provide dental and medical care to homeless individuals and families through their Homeless Healthcare Program. In addition, help will also be available for women, infants and children to eat better and to have a healthier future through their WIC (Women, Infants and Children) Program.

This partnership will kick off in November and, ideally, the WIC clinic will see clients once a week and the Homeless Healthcare Representative will be at the pantry once a month to educate and schedule dental and/or medical appointments for our pantry clients. For our purposes, "homeless" is defined as living with friends or relatives, living at a hotel or motel, in your vehicle, in a shelter or warming center or in a transitional or recovery home. These services are also available to those who are eligible and are NOT pantry clients. They will also provide transportation for appointments to and from their clinic in New Haven.

We are so pleased to be able to provide more services to our neighbors through this new partnership with Community First Health! More information will be forth coming as we work out all the details. **For more information please call 586-336-6842.**

For pantry info, visit our website at agapenorthmacomb.org. This institution is an equal opportunity provider.

Living Well Through all Kinds of Losses.

Join us Tuesday, November 27, 2018 from 9am to 3pm. This sacred time is for you to reflect on your life and how you may have acknowledged the losses you have encountered over the years. Unique strategies and opportunities for healing will be offered as the grief journey is explored.

Fall Weekend Retreats

This year our retreat theme will be: **"Holiness is ..."** In Ephesians 1:4, we read "God chose us in [Christ] before the world began, to be holy and blameless in his sight, to be full of love." The documents of the Second Vatican Council reminded us that all are called to holiness. But "holiness" can be a big topic and we might think we don't really know what it is. And so on this retreat we will reflect on various meanings of that word and what it might mean for us as we respond to God's call. Visit our website (www.capretreat.org) to find out more about our fall weekend retreats for men and for women. Our weekend retreats include all meals, conferences, healing service, adoration of the Blessed Sacrament, and time for reconciliation, prayer and being silent with God.

Ten Great Ways to be an Evangelist

Each Sunday we are told "Go Forth, the Mass is ended". What are we to go forth and do? We are to share the Good News with others. This is evangelization. How often do we follow this call from Jesus to spread the Good News? We usually don't because we are not sure how to do it. Now

you can learn the basic of evangelization and use these tips use in your daily life.

Come and learn ten practical ways that you can begin to live out your part of God's amazing plan for your life and His people. The workshop is sponsored by **St. Isidore Parish** and is being led by **St. Paul Street Evangelization**, a grassroots, non-profit Catholic evangelization organization that has showed thousands of ordinary Catholics how to share their faith. Any questions, contact Ray Karam at evangelization@stisidore.com or call the Church office.

What is the "Catholic Schools Effect?"

The Wall Street Journal published an article on June 1, 2018 titled "The Catholic School Difference" in which a study was reported regarding the apparent effect of a Catholic education on the self-discipline demonstrated by students. The researchers felt that the self-discipline of Catholic School students would be an asset for those students in their studies as well as later in their lives.

The study compared children in Catholic schools with those in public schools and other private schools, both religious and secular. The study found statistical evidence that students in Catholic schools exhibited less disruptive behavior than their counterparts in other schools. "Specifically, students in Catholic schools 'were more likely to control their temper, respect others' property, accept their fellow students' ideas, and handle peer pressure.' In other words, they exhibited more self-discipline."

The researchers went on to report a strong correlation "between the focus that Catholic schools put on self-discipline and better student behavior." The article also mentioned that "We also know that especially in urban areas, black and Latino students who attend Catholic schools show higher achievement, higher graduation rates and higher college enrollment than those at nearby public schools."

The study's authors offered among their key judgments that we shouldn't "underestimate the power of religion to positively influence a child's behavior." Religion isn't the only way to foster self-discipline, the authors emphasize, but it's effective compared to most of the alternatives in channeling youthful energy into productive self-control.

The North Macomb Vicariate has two Catholic schools within its boundaries, **St. Lawrence Elementary School** and **Austin Catholic High School**. Perhaps it would be well-worth the time and effort for us all, based on the results of this study, to consider "The Catholic School Effect" when choosing a school for our children.
